

Park Rec Minute  
05/09/2022

The meeting was called to order by Chair Mike Carey. Present were Mike Carey, Mark Page, Nicole Bower, Dawn McCracken and Eric Hanson.

The diggers and bouncers will need to be relocated as a part of the Town Hall Park project. This would require additional materials that would cost approximately \$100.00. Though they are showing some cosmetic wear, they are still structurally sound. Dawn will talk with Maintenance to see where this may fit into their schedule.

The Committee recommends bridge design #2 (Traveler's Bridge) as a part of the overall park installation. The Town Board will review this recommendation at the May 10<sup>th</sup> meeting.

Park installation is subject to material availability with the current estimate of November or sooner. They will complete installation as soon as possible.

Signs for the Food Truck Night will be put out on Friday, May 13<sup>th</sup>. Maintenance will place 12 picnic tables and set out numbered station cones so the vendors will know which area to set up in.

Our new Parks and Rec sponsor for Summer Celebration and the Holiday Party will be Jill Henning State Farm in Lakeville.

We will begin discussions for the Summer Celebration at our May 23<sup>rd</sup> meeting. The meeting was adjourned.
